

- This website is mainly a promotional website with some functional features. This business is imaginary which uses original media except for social media icons which is found on this website <https://www.iconfinder.com/iconsets/social-58>.
- This website have a minimalistic theme to it which allows users to navigate through the website easily.
- Full description about the website can be found easily on the website.
- Each page of the website has the same theme to maintain consistency.
- Log-in button opens a pop-up to allow users to log-in any time when browsing through the website.
- Clicking logo sends user back to about/home page.
- Clicking picture sends user to the product purchase page with full description.
- Users can check price of different sizes of the products by clicking on the respective buttons.
- Drop-down list for navigation bar.
- A responsive footer which users can interact with. Allows users to subscribe to newsletter.
- Sign-up page sends users to a form to create an account. Small clickable text in the log-in popup if users do not have an account.
- All details of products are clear and described on the website.
- FAQ tells users about what kind of website this is.
- All images and content used in this project is original. Pictures taken are actually handcrafted items by me.
